Energy Policy Management Statement

„DOEV“ Ltd.

The energy policy of "DOEV" Ltd. is oriented towards the production of plastic products and tool equipment.

"DOEV" Ltd. is committed to continuous improvement of the efficiency of energy consumption in production processes. Energy efficiency in the organization will be achieved through the implementation of a number of measures.

The organization will work to achieve energy efficiency goals by:

- Reduction of energy consumption costs in production activities taking into account production growth, processing time, operation, maintenance and other factors.
- Ensuring continuous improvement of energy performance.
- Providing resources and using information to achieve our energy goals.
- Compliance with legal and other requirements regarding the use, efficiency and consumption of energy.
- Consideration of the need for improvements in energy performance in the design and modification of machines, equipment, systems and processes.
- Purchase and use of energy efficient products and services.
- Commitment to adopt long-term and short-term programs to improve energy efficiency.
- Encouraging their employees to reduce the energy used in production processes by choosing appropriate production technology.
- Periodically, or at least once a year, will review its energy performance, with a view to achieving its set goals within the framework of the energy management system.

To implement the energy policy, the set goals and objectives, the management of "DOEV" Ltd. has developed, implemented and maintains an Energy Management System in accordance with the requirements of the ISO 50001:2018 standard.

Energy Policy Management Statement

„DOEV“ Ltd.

The management has created conditions for compliance with the requirements of the Energy Management System in the Organization and for the active assistance of all personnel for its development.

The management of "DOEV" Ltd. and the company's staff to observe and apply the management policy and to proceed from it when performing their daily duties in the work process.

The management declares its responsibility for the implementation of the declared policy and its readiness to revise and update it periodically so that it is adequate and suitable for the organization.

As the Manager of "DOEV" OOD, I declare my personal participation and responsibility for implementation of the announced energy policy.

Date: 22. 11. 2017

General Manager: Borislav Doev
